

Success Story:

MIS to Displace
Existing Flow
Measurement System

Background:

A Tennessee water treatment plant faced challenges with their existing flow measurement system, seeking a more reliable alternative to improve their process.

Solution:

The plant replaced their existing flowmeter with **Kobold's** MIS, which was readily available for installation.

Product

Used:

Kobold MIS - Magnetic Flow Meter

Key Features:

- 2 Configurable Outputs
- Bi-directional Measurement
- Easy to Commission
- IO-Link
- Quick Delivery

Customer Benefits:

- Addressed previous dissatisfaction with flow measurement vendor
- In stock, enabling quick installation
- Well-suited for water and wastewater applications
